## PROJECTS

### Online Auction Platform

Mar 2024 – present

- Designed and developed a dynamic e-commerce platform using the MERN stack, and facilitating product sales through a bidding system.
- Implemented real-time notification features on an intuitive admin platform to streamline monitoring and management of bidding activities.

### Design Portfolio

Feb 2024 – Mar 2024

- Developed a professional portfolio website using HTML, CSS, and JavaScript to showcase a collection of projects, demonstrating proficiency in front-end web development.
- Designed and implemented responsive layouts and interactive features to enhance user experience.
- The portfolio serves as a comprehensive representation of skills, projects, and achievements in [your field or industry]

### Yoga Registration

Sep 2023 – Dec 2023

- The main objective for developing this project is to provide an easier way to book for yoga class sessions and save time.
- In Yoga Classes Registration System we use PHP and MySQL database. This project has two modules i.e. admin and user

### Weather Forecasting

May 2023 – Aug 2023

- Developed a Weather Forecasting website with HTML, CSS, JavaScript, and APIs.
- Designed easy-to-use interfaces and backend systems to show accurate weather updates.
